Road & Building Construction (civil works)

Tenecon Constructon is a leading Nigerian company offering integrated constructon soluuoons and related services. We specialize in executing complex works that require the highest levels of technical expertse and excel in the implementaton of state-of-the-art construction methods and technologies. Our core competencies cover all project phases, including planning, design, engineering, construction,maintenance and operationfor building, infrastructure and industry projects.

Our quality management systems demonstrate that we are well equipped to consistently meet clients' needs and that quality is continuously improved. Combined with our collaboratve approach, our drive towards innovaton,

expansive experience and resources underpin project success. With a proven record of delivering quality results on-tme we stand out as your partner of choice. We urge you to challenge us...

Over the years, TCC has been developing and refining methods and procedures to efficiently control tme, cost and quality of client's constructionprogram. We optime strategies for procurement and phase construction,marketing to bidders to ensure competit e prices, cost and quality control.

Many aspects of building construction services affect the architectural and structural plan of a building such as the verti al and horizontal routes for piping and outwork systems, the weights, sizes and locaton of major equipment and plant,

energy efficiency strategies and so on. Therefore, building services designs are integrated into the overall building design from an early stage, especially on large building projects.

Our mechanical and electrical services engineers work closely with the architects, eliminating interference and conflicts between building services installations and the ongoing building construction which causes delays, alterations, wastage of materials, dismantling etc. Our consistent cooperation creates orderliness, leading to time and cost effective operation on site.

TCC understands that different clients mean different demands. Our flexibility allows us to deliver to the clients' satisfaction whether the design is more conventional and relatively low in cost or more advanced, complex and high in budget. With the quality of our team, both in the design and installation stages, we are confident in handling large scale projects that require a high level of professionalism, meticulous execution and constant scrutiny throughout the project.

QUALITY POLICY

It is the policy of Houston Tenecon Construction Company to:

Provide services that constantly meet the present and future needs of our customers the first time, thereby gaining enthusiastic customers trust and support.

Pursue continuous improvement in quality activities, so that each employee does his or her job right the first time. Eliminate barriers to creativity, so we can focus our collective genius on our customer's requirements and provide unique products and services that are best in their classes in both functionality and reliability.

Create an environment for CLIENT quality management by developing an empowering

vision that is communicated to our customers, so we can provide services that fully meet the requirements of our customers. We pledge to continue this commitment to our customers with investment in research, development, and training that are well beyond industry norms.

Likewise, our continued commitment to service will be demonstrated with a growing list of options for customers' education and support.

The employees of the company must follow procedures and perform their work following this policy. Any activity that in the opinion of an employee cannot be carried out under this policy must be suspended and reported immediately to the relevant supervisor.

HSE POLICY

It is the policy of TCC to conduct its operations safely, to ensure the good health of its personnel, a secured environment, and being sensitive to the needs and concerns of the community around its area of operation.

TCC will manage its operation in such a way as to achieve the following:

- Preserve the health, safety, and security of the employees and members of the public who may be affected by its operations
- Minimize the impact of its operation on the environment.
- Maintain sensitivity to the needs and concerns of the host communities around its operational areas.
- Recognize TCC management as a line responsibility.
- Maintain relationships with the host communities.
- Believe that every job can be done safely
- That everybody has a joint responsibility for HSE.
- Recognize that no activity shall be carried out unless considered safe.
- Carry out all and other swamp/marine mechanical repairs safely and without any additional impact on the environment.
- Complete Emergency services earlier than the client's estimated schedule with all TCC considerations in place.

The employees of the company must follow procedures and perform their work following this policy. Any activity that in the opinion of an employee cannot be carried out under this policy must be suspended and reported immediately to the relevant supervisor. Line management is responsible for ensuring compliance with this policy.

NIGERIAN CONTENT POLICY

It is the policy of **TENECON CONSTRUCTION COMPANY** to ensure that its businesses are organized, planned, and executed in such a manner as to be consistent with Nigerian Content Directives. To this end TCC will manage its operation in such a way as to achieve the following:

- Nigerian content directives.
- To fully comply with the NCD directives, TCC shall domicile all personnel recruitment activities in-country as well as the location of the Project Management Team (PMT) and Project Procurement Centre (PPC) in-country and carrying out in-country recruitment scope of all personnel required for our client's project execution.
- TCC shall show commitment in meeting with the Nigerian Content targets of the Federal Government of Nigeria in achieving above 90% Nigerian Content by the year 2025. In terms of total monetary expenditures through the deliberate utilization of Nigerian human and material resources without sacrificing Safety, Health, and Environmental standards.
- TCC shall also show commitment in increasing the Nigerian Content aspect of its operations by a deliberate addition or creation of value in-country via the capacity building of locals, Technology Transfer Programs, Technology Mentorship Programmes, increasing physical operational presence and investment in Nigeria, creating opportunities for human resources development, development of Nigerian contractors and suppliers and implementing various innovations that will increase Nigerian Content Development in Nigeria.
- The Local Content Advisor is responsible for ensuring compliance with this policy.
